[For the News.] AUTUMNAL SUNSET. BY NOVICE,

I mark thy coming, Autumn gray, With stealthy steps, in russet clad, Thou hast faded the summer flowers away E'er thy chilling breath hath made them sad. Thou wilt cast from the forest its robe of green, Or change it to the rainbow dies, That marks thy steps of reseate morn

Thou hast thy beauties : well, I love Thy flowing sunsets passing bright-Those gorgeous clouds, bright canopies, That veil the entrance into light. In such a tranquil hour as this How vain the pageantry of earth,-In contrast, seems an aching void-Its fleeting show, its heartless worth.

O'er mild Italia's summer skies.

Yes, busy memory too will bring The joys and hopes of hy-gone days; And well-leved forms, who long have beeen Consigned to earth with grief and tears; A shadowy band they steal around, And linger with the wilight hour, And o'er the saddened spirit east . A calmness sweet, a soothing power.

Oh, who would always linger here, If scenes like these are emblems given. What rapture shall our spirits share ... Within the sapphire gates of heaven. A few more setting suns and time, With us, perhaps, will then be past; Oh welcome hour, if we may then A blissful entrance have at last.

IF Our friend Dow, jr. of the New York Sunday Mercury, delivered his 356th discourse to the readers of that popular journal from the following text;--

The lady who, before, the tub, is not assumed to wring or rub; Or on the floor ashamed to scrub,-And cares not who calls in to see
Her laboring so industriously,
Will make a wile for you or me.

We give below his concluding remarks: "My brothers-since you know that maringe is a divine institution, and that every. one of us should have a wife, what kind of a rib would you select ?- a prefty, little, useless doll, or a woman big and spunky enough to a raesel" with a bear and come off first best. I imagine you would care nothing for either extreme; but you would look for personal charms. O. you foolish idolators at the shrine of beauty! . Know you not that foundreds of hosbands are madeen miscrable by handsome wives, and thorisands are happy in possession of homely ones?-homely without but beautiful within. Alas! what is beauty? It is a flower that wills and withers almost as soon as plucked-a transcient rainbow-a fleeting meteor-a deceitful wilo'-the-wisp-suffumigated maonshine. The kind of wife you want is one of good morals, and knows how to mend trowsers; who can reconcile pealing polatoes with practial or fushonable pietywho can waltz with the dashchurn and sing with the ten-kettle - who understands broomology, and the true science of moppingwho can knit stockings without knitting her brows, and knit up her husband,s "ravelled sleeve of care"-who profess sewing tears with the needle to sowing the tares of scandal with the tongue. Such is decidedly a better half. Take her, if you can get wherever you can find her-let her be up to the olbows in the suds of a wash tub, or picking geese in a con-stable.

My hearess-our text speaks of a lady before a tob. You may think it absurd, but let me assure you that a female can be a lady before a tub or in the kitchen, as well as in the drawing room or parlor. What constitutes a lady? It is not costly dress, paint for the cheeks, lads bair and still fals. er airs; but it is her general department; her intellectual endowments, and that evidence of virtue which commands the respect and silent admiration of the world? She would be recognized as a lady at once—it matters not where, or in what situation, she were found-and be regarded as such-whether scorching bed-bugs with a hot poker or " ho!lering" hallelojili at a Methodist campmeeting. All that I have further to say fellow-bachelors, is, that when you marry, see that you get a fady, inside and out-one who knows how to keep the pot boiling, and looks well after her household. So mote it Dow, JR.

THE DAILY NEWS.

Newport:

TUESDAY, OCTOBER 19 1847.

BY O. F. JACKSON, 97-THAMES ST.

Town Meering .- Every voter must see the necessity of attending the town meeting to-day, and casting his vote either in favor or against the changes proposed in our town government, by a committee appointed some time since for the purpose of revising our town by-laws. Our citizens have had an opportunity of seeing what those changes are, and have had time to digest them in their minds and satisfy themselves, so far as they can be satisfied, without experience, whether the changes proposed are what are wanted, or not.

Many of our citizens yet entertain a hope that a city form of government may be adopted mnong us. They say that nothing short of such a government will consumate the improvements called for. If our municipal affairs can be managed as efficiently and as economically under a town as a city form of government, it is, immaterial to us which we have. Improvements are loudly called for, and since the public mind has become aroused on this point, let us not rest short of some improvements, even if they do not come up to what might be wished.

We hope the meeting to-day will be futly attended, for important changes are proposed, and the action of to-day will be final.

New Orleans.-Next to New York New Orleans is striding forward to commer cial supremacy. Nothing but statistics can convey an adequate idea of the growth of our flourishing Southern sister. The Ocean and the Mississippi, itself an inland sea, pour their treasures into her lap with a profuseness that will ultimately place her in a position scarcely second to New York. And it is not alone the natural facilities she possesses that huild her up so rapidly.--The population of New Orleans, already larger than that of Baltimore or Boston, is not excelled for enterprise by any city of the Union. Capital has been centred there from all parts of the world, but conspicious among the holders of it are those whose countenances and habits betray the indomitable Yankee. Especially in the newtown, where the heaviest trade is done, and where the great store-houses crowd upon the steamer-lined levce, the New-Englander takes the lead. Ten years have completely inclamorphosed New Orleans and driven back its swampy borders towards Ponemartrain. The trade of the city, as indignted by the number of river steamers and the tonnego of ships entered at her Custom House shows her growth better than any table of population. The number of vessels registered for the 1st and 2d quarters of 1846 was 1317, tonnage 395,385,61,101 In the same time, 1847, the number of vessels was 1854, tonnage 502.077,89, an increase of 597 vessels-tonnage 106,692,28. We are glad to record these signs of prosperity and hope that with her commercial growth and importance, New Orleans may soon outgrow the only draw back to it-Yellow Fever.

COURT MARTIAL. The following are the members of the court martial which has been instituted for the trial of Col. Fremout of the Regiment of mounted riflemen :--Brev. Brig. Gen. G. M. Morgan. 11th infantry; Capt. John F. Lee, or_ dinance department, is appointed the judge advocate of the court. The court, we unders and, is ordered to assemble on the 2d day of November next, at Fort Monroe, Va. being the most convenient military station where adequate public quarters can be furnished for its accompdation .- Union .

THEMENDOUS POWDER MILL EXPLOSION AND LOSS OF LAFE .-- The Nashville papers contain the particulars of a most shocking calamity, which belef that city, on Tuesday last-being a portion of the awful effeets of the late storm.

During the terrific and appalling thunder storm on Tuesday evening, while the N. O. Della. ratia was falling in torrents and the wind blowing a hurricane, the powder magazine in Nushville was struck by lightning. The fire almost instantly reached the powder and the entire building was blown to atoms. The report of the explosion is said to have been equal to that of the most tremendous earthquake.

The loss of life and destruction of property by this horrible calamity was immense. One hundred houses were either wholly destroyed or materially injured.

Ten human bodies have already been exhumed from the ruins of the buildings.

The dwelling of Mr. Sheavers was liter ally tora to pieces. His family were all much hort, and one of them a young lady, land papers to the 25th September have was killed.

GRADUAL RISE OF NEWFOUNDLAND ABOVE THE SEA .- It is a fact worthy of notice, that the whole of the land in and about the neighborhood of Conception. Bay, very, probably the whole island, is rising out of the ocean at a rate which promises, at no very distant day, materially to affect, if not to render The potato blight has commenced its deuseless, many of the best harbors we have now on the coast. At port de Grave a ser- land. ics of observations have been made, which undeniably prove the rapid displacement of the sea-level in the vicinity. Several large flat rocks over which schooners might pass some thirty or forty years ago, with the greatest facility, are now approaching the upon it the effices of the Virgin and St. surface, the water being scarcely navigable John the Baptist, besides a modallion, illusfor a skiff. At a place called the Cosh, at trative of agriculture, manufactures and the head of Bay Roberts, upward of a mile from the sea shore, and at several feet above its level, covered with five or six feet of vegetable mould, there is a perfect heach, the stones being rounded, of a moderate size, and in all respects similar to those now found in the adjacent land washes .- Newfoundland Times.

THE FORTIFICATIONS OF PARIS. - When the forts around Paris are completed they require, in time of peace, an army of 24, 800 men forming with the garrison of the city proper an effective force of 60,000 infantry, envalry, and artillery, with 1.262 cannon, 80 mortars, &c., exclusive of the National Guard. The population of Paris with the suburbs, is 980,000, besides 70,000 foreigners, 25,000 of whom are English.

67 A fire broke out in an old building in Sugar Lane, in Providence, on Friday, which was extinguished after burning some valuable papers. Disease of the Lungs and Throat cured.
White Plains, April 20, 1847.
This is to certify that I have been addicted for

tive years with a cough, pain in the chest, night sweats, difficulty in breathing etc., and I also expectorated a large quantity of frothy matter and blood, from which I was reduced to a perfect skeleton, my throat was very much ulcerated. I had lunar caustic applied to my throat twice a yeek, but received no benefit; I have used one fundred different kinds of Patent Medicines, recommended by my friends, but all to no purpose. domining by my trients, but all to no purpose. A friend of mine, Mr. Willett, whose lungs had been affected for two years past, was cured by Dr. Vendersmith's Medicine. He insisted upon my trying Dr. V., and I did so. After I had used his medicine 16 days, I expectorated large quantities of yellow fetid matter, my chest expanded, and my difficulty in breathing subsided. I persevered with his medicine, and the result has been, I am perfectly cured of all my sickness. I recommund every consumptive to try Dr. V.'s medicine, I am event consumptive to try Dr. V.'s medicine, I am confident it will cure you. Your sincerefriend, EDWARD C. THOMPSON.

Staten Island, June 10, 1817.

Dear Sir-1 take great pleasure in giving you my certificate, last December I was attacked with severe cough, pain in my left side, loss of appetite, and continual raising of white and vellow mucous. Some days I reised a half-pint of mucous, streaked with blood. I have been under the treatment of a dozen physicians, I was recommended by Dr. Mitchel of Philadelphia, to use a Breathing tub. I purchased one, I only made use of it one week, it was the cause of bringing on a hemorrhage of the lungs, which reduced me so much that t was unable to sit up, my voice was entirely des-troyed, it was difficult for persons to understand me. I saw Dr. Vondersmith's Medicine recommended very strongly by a patient whom he had oursel. I sent for half adozem buttles, I received great benefit from that, which induced me to purhase a dozen bottles, I took according to the di-

chase a diagra bottles, I took according to the di-roctions, and it cured me perfectly sound.

m3-SAFE, CHEAP AND EFFECTIVE. -CH This medicine makes no pretensions to miracu-lous powers the raising of the dead, arte im-mense and assounding sales daily and hourly, after the most approved method of the times; but bases all its chains upon plain common sense principles, as a simple win to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a failtful triat as a test of its carative properties.— During the last twenty years it has worked its way into extensive use, waith upon its own meetls, by commendation from individual to individual, not having been advertised for more than twelve was mixing even agrerised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is iditor. The increasing demand, however tor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar pack-

age is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than filteen years—has knowledge of its approved use in many others, (for periods varying from months to lifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its layer will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it,

Dr. Boardman, Sir-In answer to your inquiry respecting my ease, I will merely say, that I have been sick since I strained my breast and loins in May, 1836, from that time continued to grow worse, when in the full of '39, I abandoned business, and Lave not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was honeless. Last winter my brother told me he had heard a good account of Dr. Banning's such cases, and was anxions that I should try it; such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or pulpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk confortably. I ain able to shave myself with comfort, which for many years I have not been able to do. The piles, which have troubled me for nine years, are nearly cradicated. Miracle.

ON the 4th of August in the year 1813, a singular scene occurred in the Royal Scientific Institution of France. The aged, white headed President his had bare, his arms outstretched, his face rapiant with smiles, (for science was triumphart) and his principle. unt,) and his voice with gratulatory tone, delivered the fallo wing repect:

"We are astounded at this singular preparation.

Where indeed will science stop! Here we have a preparation made in the form of a heautiful piece of soap, which we know by actual practic or soap, which we know by actual practice, to cure every cutaneous emprion, every disfigurement of, and even discolored skin! Where will its magic and singular power cease? The Negro, the Creole, the Yellow Race of the East, and the Red Man of the Ear West, are alike under the influence of its extraordinary accuracy. heautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had

used it, in proof of his assertion.)
There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of JONES? TRAMAN CHEMICAL SOAP ABLE LIQUID state Dy E is not the best, the checked up with manarum, and some truly best yet known in this country or Europe ative entirely cared it.

This valuable discovery will enable a person to dye instantaneously the Hair or Whiskers in a few minutes, without the least inconvenience. This preparation is warranted not to wash out, nor to injure the health of the hair, and retain all its solutioness and brilliancy.

DB. EMANUEL,

Dear Sir:—You may perhaps think my statement almost incredible. My tenson for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told nie so; my friends teld me so; as well did my symptoms, for they were truly alarming; and I feltfully convinced, that unless relief was obtained. I must soon be consigned to the was continued. I must soon be consigned to the interior confines of the silent grave. But by the timely use of y ar remedy. I still live, and again enjoy my torner good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst singe; but by

the use of your Jelly, I again say, I am cured.
. Yours, dear sir, with great sincerity,
ISAAC J. BEED.

And now, reader, having given you a plain statement, let me conjure you to pause, cre it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from onsumption; and I hope, in return, that you will not withhold from me your name, and a statement
